## Address

Rua José Nogueira Vaz 4  
4ºDto

2625-099

Póvoa de Santa Iria  
Portugal

## Brief Description

Passionate about technology, responsible and organized are the words I consider to describe me the best. I am fully devoted to every task that is assigned to me. I am also very curious and never stop seeking knowledge. My main fields of interest are coding, new technologies and engineering. I'm currently working for Celfocus SA in the Revenue Management Team, developing and supporting billing systems for SIBS. I'm proficient in C, Java, PL/SQL and Shell.

## Academics

02/2017 - 03/2017: College Internship — Programa de Introdução à Prática Profissional

EID - a Cohort plc Company

2013 - 2021: BSc in Electrical and Computer Engineering

Faculdade de Ciências e Tecnologias - NOVA University of Lisbon

## Professional Experience

03/2021 - Present: Celfocus, SA - Revenue Management Team

Projects developed for SIBS PT and PAYTEL

Housekeeping Process: Design, implementation and testing of a Java program with a Shell control module that allows the user to export, import and delete data from all the SIBS databases (Oracle SQL) according to the retention rules.

Billing Processes: Optimizations in the internal scripts and programs. New developments according to the SIBS specifications. Developments in C, Java, Shell and SQL.

Password Storing: Configuration and safe implementation of the users and passwords used to gain access to the system.

11/2019 - 02/2020: Seller

FNAC Portugal (Fnac Chiado), Technology and Mobile Department
